

ESTES FULL VALUE COVERAGE

Protect yourself from loss. Invest in peace of mind.

At Estes, protecting your shipment is our top priority. That's why we offer affordable cargo coverage that protects you from loss and delivers exceptional peace of mind.

Should the unexpected happen, Full Value Coverage (FVC) offers many exceptional benefits over a carrier's limited liability coverage:

- » Your shipment will be covered at the invoice value
- » Your shipment will be protected from losses caused by Acts of God or natural disasters
- » Concealed damage will be covered when reported within five days of delivery

Try Full Value Coverage today!

Full Value Coverage can be requested in multiple ways:

- » In the My Estes [Bill of Lading](#) tool, in the Freight Information section, check the box that reads "I would like Full Value Coverage" and enter the coverage amount
- » In the My Estes [Rate Quote](#) tool, in the Freight Information section, check the box that reads "I would like Full Value Coverage" and enter the coverage amount
- » On the [Rate Quote](#) Results screen, use the new "Affordable Cargo Protection" box; click "Calculate Coverage," enter your desired coverage amount, and it will be added to your quote
- » Clearly write "Full Value Coverage" as well as the invoice value on your Bill of Lading
 - o Information on how to determine the rate for a shipment can be found [here](#)

Please note: To receive FVC, the request for FVC must appear on the Bill of Lading and include the coverage text and amount. If the request is not specified on the BOL, or is removed from the BOL, the request will not be valid.

Also, if the value of your shipment is over \$150,000, Estes must approve your Full Value Coverage request.

For more details, please see ITEM 350, Section 3 of our [Rules Tariff](#).

At Estes, going the extra mile isn't just what we do—it's who we are
