

FINAL MILE *FAST FACTS*

At Estes, we've always been proud to invest in a transportation solution that supports one of the most crucial links of your supply chain: the final mile.

But with home deliveries at an all-time high due to the ongoing surge in e-commerce, Estes has never been more committed to investing in the equipment, resources, and technology necessary to build a best-in-class Final Mile solution for you and the people you serve.

Through Estes' commitment to building a best-in-class Final Mile solution, we've grown our:

Drivers by 9%

We've increased our drivers by 9% year to date, with plans to expand our driving force by another 12% in the coming year

Capacity by 35%

We've hired an additional 150 dedicated Final Mile Drivers this year, boosting our delivery capacity by 35%

Straight trucks by 16%

We've expanded our fleet of straight trucks by 16% from 2019-2021, with plans to increase it by an additional 53% in 2022

Box trucks by 15%

In 2021, we've increased our fleet of box trucks with lift gates by 15%, with plans to increase it another 15% next year

Lift gates by 7%

From 2019 to 2021 we've increased our number of fleet of lift gates by 7%, and plan to increase it another 20% by the end of 2022

Electric pallet jacks by 200

Between 2020-2022 we'll have added close to 200 Electric Pallet Jacks for Final Mile deliveries

Technology Investments

In 2021, we invested in technology to improve the Final Mile experience, including:

- Text notifications throughout the home delivery shipment process
- Enhanced shipment tracking with real-time detailed delivery transit updates
- User-friendly home delivery shipment tracking tools on our website
